high blood pressure, I was shocked. The doctor said we might have to try several medications

until we found the one that was right for me. He had me switch medicines every couple

of weeks because nothing was working, and after about 10 medications we found EDARBI

[TEXT APPEARS ON SCREEN]

Available by prescription only.

EDARBI® logo appears on screen

and that really worked for me. There's a lot going on in my life and getting my blood pressure in the

normal range gave me one less thing to worry about. EDARBI is a prescription medicine used
